Places

Navigating the place details page

The screenshot displays the 'Rotterdam' page in Lloyd's List Intelligence. The top navigation bar includes 'Vessels', 'Companies', 'Places', 'Incidents', 'Sanctions', and 'Channel: Credit'. The 'Places' tab is active, showing 'Rotterdam' with the flag of the Netherlands (NLD). A search bar is available with the text 'Search by place name...'. Below the search bar, there are buttons for 'Save vessels' and 'Clear search'. The main content area is divided into two sections. On the left, the 'Rotterdam - Summary' section provides key information: Location (NLD, N Cont Europe), Lat/Lng (51° 54' 0" N, 4° 28' 60" E), Admiralty Pilot (28), Admiralty Chart (122/132/133), Timezone (GMT +01H), Type (Port), and UNCTAD LOCODE (NL RTM). Below the summary is a table of results with columns for Name, IMO, Flag, Vessel Type, Contact, DWT, and ETA. The table lists several vessels, including Awatod, Istanbul, Minerva Nike, Ligovsky Prospect, SCF Surgut, RS Tara, Euro, and Dilong Spirit. On the right, the 'Vessel details' sidebar allows filtering by Name, IMO, Flag, Vessel Type, Contact, GT, DWT, and Built. Two callouts are present: '1' points to the 'Destined For' filter button, and '2' points to the 'More Filters' button.

1 The place details page will allow you to view all vessels:

- ▶ **Destined for** arrival at the port or place.
- ▶ Have **called at** the port or place.
- ▶ Which are currently **at port or place**.

2 You can filter your list by multiple criteria by clicking the 'More Filters' button. This allows you to filter by vessel type for example.
