

# Vessel Search and Filtering

The next generation Lloyd's List Intelligence Seasearcher

# Vessel search and filtering

How to access vessel information and movements fast using the quick search toolbar

The screenshot shows the Lloyd's List Intelligence Vessels search interface. The search bar at the top left contains the text "sea cr" and is highlighted with a red circle and the number "1". Below the search bar, a list of search results is displayed, with the second result, "Tanoe", highlighted with a red circle and the number "2". The interface includes various filters for Status, Flag, Vessel Type, Built, and Deadweight Tonnage. A map on the right side shows the location of vessels on a world map, with blue circles representing vessel locations and numbers indicating their count in specific areas.

- 1 The quick search bar allows you to enter a vessel name or IMO number. The auto suggest assists your search for vessel name.

The auto suggest results display the vessel name, IMO number, flag, vessel type and also includes quick links to the **Movements** and links to download or email the **Vessel Report PDF**, saving you time.

- 2 You can click on the vessel name to go to the vessel overview page.
